<https://www.linkedin.com/in/theodore-ayoub-iii-07610922/>

U.S. Military veteran with experience leading teams in technical environments and high-level operations. While on active duty, I was selected to attend a computer science graduate program in Monterey, California. Recently earned a certificate in Full Stack Development from the UC San Diego Extension with newly developed skills in HTML, JavaScript, CSS, and responsive web design. Passionate about lifelong learning, I aim to expand on the degree and certificate by learning new programming languages and developing applications. Current active security clearance at the TS level.

EXPERIENCE

2003 – PRESENT

U.S. MARINE, UNITED STATES MARINE CORPS

Started off with a six year enlistment in the US Marine reserve. Deployed twice to Iraq. Commissioned to lieutenant in 2012. Roles include serving as a communications officer at the battalion level, graduate school, and finally network engineer. Held leadership positions at the platoon level and planned operations at the battalion level as a lieutenant. Selected to graduate school during end of initial tour.

2000 – 2008

ASSISTANT MACHINIST, C-FLEX BEARING CO., INC.

Setup and operation of metal work machinery. Assembled and welded in TIG. Setup and operation in CNC equipment.
